RE: Washington D.C. trip

I am really looking forward to getting started with this year's trip to D.C. Our kids are really excited about seeing the Nation's Capitol.

I can't thank you enough for the time and effort that you put into making our trips successful. When I first started planning the D.C. trips using other travel companies, it would honestly take months of my school year to plan and coordinate. Your hands-on approach makes my job so easy. Your attention to detail and knowledge of the D.C. area makes Educational Travel Adventures the only choice for our trips.

Somehow, each year you manage to out do yourself with a trip that was better than the year before. I don't know how you do it! For six years now the D.C. trip has been a highlight for our 8th graders and the faculty chaperones. It is very clear that safety and your love of children put Educational Travel Adventures in a league of their own.

Thanks again for all of your efforts in providing our students with a trip that will be remembered for a lifetime.

Sincerely,

Rick Swaim
Principal
